Price Formation in Energy and Ancillary Services, Markets Operated by Regional Transmission Organizations, and Independent System Operators: Notice of Workshop

As announced in the Notice issued on June 19, 2014, the Federal Energy Regulatory Commission (Commission) directed its staff to convene workshops as necessary to commence a discussion with industry on existing market rules and operational practices affecting price formation issues in energy and ancillary services markets operated by Regional Transmission Organizations (RTOs) and Independent System Operators (ISOs). The June 19 Notice listed four areas of interest: uplift payments, offer price mitigation and offer price caps, scarcity and shortage pricing, and operator actions that affect prices.
